

Sally Maroush

Mobile & Frontend Engineer Abu Dhabi, UAE | +971 50 388 2859

marouchsally@gmail.com | [LinkedIn](#) | [Github](#)

Summary

Software Engineer with **3+ years** of experience specializing in scalable React, React Native, and Next.js architectures. Proven track record of delivering high-performance cross-platform applications and secure enterprise solutions for the UAE government and retail sectors. Adept at complex state management, UI performance optimization, and full-stack integrations.

Experience

Independent Mobile & Frontend Engineer | Freelance

Abu Dhabi, UAE | Nov 2025 – Present

- Architected decoupled cross-platform mobile architectures using **Expo** and **TypeScript**, implementing real-time geospatial tracking and strict sub-100ms UI responsiveness.
- Engineered high-performance web architectures utilizing **Next.js** (App Router), integrating Server-Side Rendering (**SSR**) for optimal **SEO** and Lighthouse scores.
- Mastered complex state management using **Zustand** and **TanStack React Query**, while designing dynamic micro-animations via Tailwind CSS and **Framer Motion**

React Native & Frontend Engineer | INFO Strategic IT Consultancy

Abu Dhabi, UAE | Aug 2023 – Nov 2025

- Spearheaded the frontend architecture for **SEEN E-Commerce** (Web & Mobile), driving a successful live release in the **UAE**. Translated Figma designs into pixel-perfect UIs, resolved 100% of inventory race conditions via **Optimistic Locking**, and improved Time-to-Interactive (**TTI**) by 60% through progressive rendering.
- Engineered the SEEN mobile application's core integrations, including secure **JWT** authentication and **AppsFlyer** SDK for growth tracking, while architecting persistent bidirectional state synchronization (**Redux Toolkit**) across Native app contexts and embedded WebView bridges.
- Delivered mission-critical sovereign frameworks for the UAE Ministry of Industry and Advanced Technology (**MOIAT**) and **Public Prosecution**, ensuring strict security and accessibility compliance.

Featured Projects

- Full-Stack Ride-Hailing App (Uber Clone): Built a scalable mobile application with a standalone **Node.js**/Express backend. Integrated **Google Maps APIs**, secure **Stripe/Apple Pay** payment gateways, and **Clerk Auth (OAuth)**.
- Headless Design System (Portfolio): Engineered a 100/100 Lighthouse performance web architecture using **Next.js** (App Router), **Tailwind CSS**, and **Framer Motion**.

Skills

Frontend & Mobile: React.js, React Native (Expo/CLI), Next.js, TypeScript, JavaScript, Tailwind, Bootstrap • **Architecture & Tools:** Redux Toolkit, Zustand, React Query, Stripe, Google Maps, AppsFlyer, Firebase, Git/GitHub, AI Coding, REST APIs

Education& Languages

• B.S. in ICT Engineering (Informatics) | Tartous University, Syria (2016 – 2021) • Languages: Arabic (Native) | English (Professional Working Proficiency)
